Important Questions	Answers	Why This Matters:
What is the overall deductible ?	\$1,000 member / \$2,000 family	Generally, you must pay all of the costs from providers up to the deductible amount before this plan begins to pay. If you have other family members on the plan , each family member must meet their own individual deductible until the total amount of deductible expenses paid by all family members meets the overall family deductible .
Are there services covered before you meet your deductible ?	Yes. Certain preventive services , office visits, tests and prescription drugs are covered before you meet your deductible . See the specific services listed below denoted ' Deductible does not apply'.	This plan covers some items and services even if you haven't yet met the deductible amount. But a copayment or coinsurance may apply. For example, this plan covers certain preventive services without cost sharing and before you meet your deductible . If you have other family members in this plan, they have to meet their own out-of-pocket limits until the overall family out-of-pocket limit has been met.
What is not included in the out-of-pocket limit ?	Premiums, health care this plan doesn't cover, denied benefits, balance billing charges, the benefit reduction amount when prior authorization is not obtained.	Even though you pay these expenses, they don't count toward the out-of-pocket limit .
Will you pay less if you use a network provider ?	Yes. See www.networkhealth.com or call Network Health Customer	This plan uses a provider network . You will pay less if you use a provider in the plan's network . You will pay the most if you use an Out-of-network provider, and you might receive a bill from
